2024 - Primary hedging technique, running on American machines, named "The Chevy Chase of algorithms"	Astonishing success	Invented on 24/7/24 same day all sorts of mad and even extremely rare events in political USA - eg Biden cutting and running.	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
2024 - The Protect Britain from America first algo	Astonishingly astonishing success.	Invented on 27/7/24, uses Zero Day to Expiry options and all my knowledge of velocity as it pertains to financial instruments. Cannot guarantee profit within just days but does increase in size much more rapidly than the other astonishing success and is therefore much more profitable overall than the chevy chase situ, hence for now the UK does indeed house my most powerful financial tool.
